

## **NETWORK RAIL NEW LINES REPORT**

### **STATEMENT BY HIGH SPEED TWO**

**Welcoming Network Rail’s report Sir David Rowlands, Chairman of High Speed Two, said “this is a useful contribution to the much more detailed work which HS2 is doing on route and station options to the West Midlands, including Heathrow, and on corridor options beyond going north to Scotland together with a comprehensive business case covering all the costs and benefits. We will be including all of this in our report to Government at the end of the year”.**
